Summary

I'm a UX designer with a background in graphic design, and the proven ability to turn complex information into easy-to-use experiences for both digital and physical products.

Experience

User Interface Designer, BowFlex Inc. (Formerly Nautilus Inc.)

February 2021 – Present, Vancouver, WA

- Creating seamless digital and physical products through collaboration with research, development, and hardware design teams.
- Designing, prototyping, and testing connected home fitness experiences for the JRNY app in an agile environment for mobile, tablets, and embedded screens.
- Improved efficiency in the design and development process through the use of the JRNY app design system.

Designer, Freelance

July 2019 – February 2021, Remote

- Developed brand identities and digital assets for multiple clients including Transparent Path, Haddon Culinary, and The Nines Marketing Agency.
- Turned discussions into unique designs and user experiences while working closely with clients to ensure the best experiences for users and companies.

Visual Designer, Crimson Trace

September 2018 – October 2019, Wilsonville, OR

- Designed print and digital ads for Crimson Trace's marketing team.
- Created layout and graphics for catalogs, packaging, retail displays, and web content.

User Interface & Graphic Designer, Agero Inc.

December 2009 – September 2018, Medford, MA

- Designed experiences to facilitate the roadside assistance process between customers, call centers, and roadside services.
- Collaborated with automotive clients including Hyundai, Volvo, and Subaru to provide branded roadside assistance apps.
- Created ads and internal communication for Agero's marketing team.

Education

User Experience Design Immersive

General Assembly, Seattle, WA

Bachelor's Degree – Multimedia & Graphic Design

Champlain College, Burlington, VT
